Symphony Slowness

Added by **Dawne Tortorella** (12/26/2018 - 15:24) , last updated by **Dawne Tortorella** (12/26/2018 - 15:24)

We have reports of Symphony Workflows slowness and errors when accessing Enterprise. IT is working with SirsiDynix to determine the cause of the system high load average. If you experience slowness in Workflows or problems accessing Enterprise, please open a support ticket so that we can continue to monitor the scope of the problem. We will continue to work with SirsiDynix and update the membership on resolution.
