## Temporary Suspension of Fiction/Nonfiction Updates to Newly Cataloged Items

To aid in the overnight processing of record changes relating to the Green Hills library migration, we've temporarily suspended the "Set Item Cat 3" report which automatically populates the Item Category 3 (fiction/nonfiction) field for newly cataloged records. Once Green Hills data has been fully migrated to our system (estimated by Friday), we'll reenable this report and retroactively update newly cataloged records. Until then, new items will not appear in searches utilizing the Fiction/Non-Fiction facet in Enterprise.
