Cataloging Advisory Meeting March 14th - Agenda

Added by **Scott Brandwein** (03/11/2019 - 12:41) , last updated by **Scott Brandwein** (03/11/2019 - 12:41)

The agenda for the Cataloging Advisory Group meeting this Thursday, March 14th, is posted to the [Meetings & Documents](#) page of the Support Site. This meeting will take place from 10:00 a.m. to 12:00 n. in the RAILS Burr Ridge Main Meeting Room. We hope to see you there.

A large portion of this meeting will be spent discussing two document drafts: 1) a proposal for SWAN Core minimum cataloging standards, and 2) a list of fields that can be deleted during copy cataloging. We will post these to the Meetings & Documents page under "Packet/Additional Files" tomorrow, March 12th if you wish to review them prior to the meeting. If you cannot make the meeting, we will be looking for feedback on these drafts for the remainder of the month. You can send feedback in the form of a support ticket after we've convened this Thursday.
