## **\*Concluded\* Enterprise Upgrade/Downtime Tuesday, April 16th at 2 a.m.**

Added by **Tara Wood** (04/15/2019 - 10:22) , last updated by **Steven Schlewitt** (04/17/2019 - 09:49)

SWAN has scheduled an upgrade to Enterprise v5.0.0.9.

This upgrade will resolve an error with the library location limit dropdown menu in Advanced Search. Currently, it displays the 3 letter library codes instead of the full library name. After the upgrade, patrons will see the full library name.

### Additional limits:

Format type:	<input type="text" value="Any Format"/>	
Language:	<input type="text" value="Any Language"/>	
Library:	<input type="text" value="Any Library"/>	
<input checked="" type="checkbox"/> Find <input type="checkbox"/> Don't show	Title:	<input type="text"/>
<input checked="" type="checkbox"/> Find <input type="checkbox"/> Don't show	Author:	<input type="text"/>
<input checked="" type="checkbox"/> Find <input type="checkbox"/> Don't show	Subject:	<input type="text"/>
Search Targets

1:AMS

1:BBD

1:BBS

We've scheduled the upgrade with SirsiDynix for April 16th at 2:00 a.m. This upgrade will require downtime of Enterprise, estimated at 1-3 hours for:

- All Enterprise OPAC functions
- Enterprise My Account functions (including payments)
- Enterprise Search functions

We will also need to disable Novelist for this upgrade. You can expect to see Novelist disabled after 4pm today.

Please note that Symphony WorkFlows, SIP2, and Web Services will not be affected by this outage. WorkFlows Offline Mode will not be required for this outage.

If you have any questions or concerns, please email us at [help@swanlibraries.net](mailto:help@swanlibraries.net) or call 844-SWANLIB (792-6542).
