Search Interest also works with standard boolean operators

- Use **And** (both) to narrow search ex: (Dogs Fiction) And (Mystery Fiction) provides fiction books about dogs involved in a mystery
- Use **Or** (one or the other) to broaden search i.e. (Dogs Fiction) Or (Mystery Fiction) provide books about dogs or books that are mysteries, but not necessarily both
- Use **Not** to exclude – i.e. (Mystery Fiction) Not (Stuart Woods)
(Regency Fiction) Not (Erotic)

Other useful information: Any terms you use need to be ones your library uses. If your cataloger uses different terms, ours will not work.

We have found that searching for DVDs through Search Interest does not work very well.
