October 26, 2021

# Agenda

- Reminder on Unusable Items
- Aspen Rollout
- Aspen Fines Payment
- Aspen & Our Bibliographic Data
- Accessibility Statement
- RAILS DEI in Metadata Networking Group
- SonicWall Hardware Replacements and Multi-Factor Authentication
- Sharing some stats
- Circ Advisory Election

# Processing Damaged & Unusable Items

- Do not cancel Transit Pop-ups – follow on-screen instructions
  - If checking out to an in-house user or UNUSABLE\_RB\_ILL, forward item with a condition note to owning library.
- Follow documentation for processing these items  
<https://support.swanlibraries.net/documentation/64708>

# Aspen Rollout

# First Cohort Live!

You can monitor your library's Aspen and Enterprise statistics and compare usage through the Patron Use Report:  
<https://support.swanlibraries.net/documentation/70841>

## In Week 1:

- 17 libraries went live – congratulations!
- Compared to the previous week:
  - Aspen sessions increased 23%
  - Aspen users increased 21%
  - Aspen sessions make up about 30% of total sessions in both catalogs

# Aspen vs. Enterprise User & Session Data

Compare usage of your Aspen and Enterprise catalogs, based on your location. Data is limited to sessions > 0, so that automatic reloading in OPAC catalogs will not count towards user and session data. For an accurate comparison, it isn't possible to limit by library catalog, but you can limit by city to get an idea of users and session in your library service area.

# Aspen Fines Payment Status

## ProPay

- Have been working with merchant account vendor for 6 months
- Need new API keys for all libraries which requires a complete 2<sup>nd</sup> set of applications, activations, and accounts

## PayPal

- Created a SWAN PayPal account, set up in Aspen, & tested (took 2 weeks)
- Libraries that currently use PayPal can work with us to turn on this payment in your Aspen catalog

# PayPal payment interface in Aspen

The screenshot shows the Aspen library website's 'My Fines' page. At the top, there is a search bar with a dropdown menu set to 'by Keyword' and 'in Library Catalog'. Below the search bar, the 'My Account' section is visible on the left, showing a balance of \$10.56 in fines and links to 'Checked Out Titles', 'Titles On Hold', 'Checkout History', 'Fines and Messages', 'Purchase Suggestions', 'Titles You Rated', and 'Account Settings'. The main content area is titled 'Fines' and contains a table with the following data:

<input checked="" type="checkbox"/>	Date	Reason	Title	Fine/Fee Amount	Amount Outstanding
<input checked="" type="checkbox"/>	2021-08-20	MAKERY_FEE		\$1.56	\$1.56
<input checked="" type="checkbox"/>	2021-10-25	OVERDUE	Ghosts in the schoolyard : racism and school closings on Chicago's south side by Ewing, Eve L.	\$9.00	\$9.00
Total				\$10.56	\$10.56

Below the table, there are three payment options: 'PayPal' (highlighted in yellow), 'Pay Later' (highlighted in yellow), and 'Debit or Credit Card' (highlighted in black). At the bottom, it says 'Powered by PayPal'.

- Patron can use their existing PayPal account and payment options
- or-
- Pay by credit or debit card

# Fines Payment in Aspen

- Thoughts on adding centralized PayPal and reconcile fines payments through Quarterly Billing?
  - Most payments are already reconciled through Quarterly Billing to properly account for item ownership and patron home library
  - Currently testing PayPal payments to ensure we can reconcile correctly
- Enterprise and all other services using ProPay will be unaffected
- Working to make the catalog "ILS neutral" and use payment methods that are more familiar to patrons

# Polls

**What credit card options does your library currently support? (check all that apply)**

- ProPay Online (Enterprise)
- ProPay Card Swipes
- Apple Pay and/or Google Pay
- Square
- PayPal

**Which of the following options would your library prefer for online payment processing in Aspen?**

- Centralize SWAN PayPal (quarterly reconciliation)
- Library's direct PayPal payment
- We do not wish to take online payment-patrons pay in person

# Poll

# Aspen & Our Bibliographic Data

Known Issues

## Audience and Fiction/Non-fiction

- Heavy use of browse categories highlights some shortcomings in bibliographic data
- Audience
  - Based on Item Category 2
  - Subject to human error and differing local practice
- Fiction/Non-fiction
  - Vendor pre-cats often incorrect
  - SWAN developing a plan to tackle

# Format

- Aspen format analysis relies on markers not present in many pre-cat and local records
- Enhancement request in place to recognize SWAN 590 format
- Implementation timeline unknown

# Aspen Office Hours
